

Managed IT Services for Senior Living Communities

As an expert in senior living technology, Dual Path ensures seamless technology integration, staff satisfaction, and top-rated support. Our strategic leadership and custom tailored solutions optimize operations, allowing you to focus on delivering quality care while we handle your technology needs.

Data-driven solutions, mission-focused results.

Featured Solutions

Dual Path Orchestrate: Virtual CIO Services

Leverage our expertise in IT leadership, technology strategy, IT budgeting, vendor relationship management, capacity planning and more.

Dual Path Secure: Cyber Security Services

Protect your business with security audits, vulnerability management, vendor and solution assessments, cybersecurity compliance, and employee security education.

Dual Path Advantage: IT Monitoring, Administration & Support

Put our team of engineers and IT professionals to work for you, providing expertly managed services including networking, servers, storage, VOIP, software management, helpdesk and managed onsite resource options.

Dual Path Engage: IT Consulting Services

Rely on our experienced specialists for onboarding, assessments, data analytics, strategy, scaling, implementation, integration, and application transitions.

Making IT Easy for your Organization

One partner, not several vendors

- One primary point of contact with a global network of partners to unify your systems
- Custom-designed applications, integrations, and API development for your communities

Industry expertise

- Specialized knowledge and experience, including a Virtual CIO for technology leadership
- Experts engaged at every level to help your communities stay competitive

24/7 Support

- Around-the-clock support to ensure any technical problems quickly and efficiently
- Outstanding customer service every step of the way

Cost-effective

- More cost-effective than hiring a full IT staff with more expertise and better integration
- Expert support to monitor your network and prevent costly IT outages

Scalability & continuity

- Secure solutions you can trust to continuously protect data & privacy
- Recommendations based on growth, scale, budget, technology shifts, and business continuity

Find out how you can step into a seamless technology experience today.
