

Residential Services & Triple Play for Senior Living

Fully Managed, High-Speed Internet, Phone & TV Services

Why Dual Path?

At Dual Path, we create value for senior living communities by providing modern amenities that attract and retain residents. Our community-wide WiFi, phone, and bulk TV packages give you a competitive advantage while improving quality of life for your residents. Our senior-focused Compassionate Support™ and engagement platforms are designed to build residents' skills and confidence, helping them fully embrace the benefits of new technology.

Our Services

- ✓ Turn-key Community-wide WiFi
- ✓ Advanced Phone Systems
- ✓  DIRECTV
- ✓ 24/7 Compassionate Support™

Rated 4.9 stars

Not all Internet connections are the same.

Dependable high-speed Internet access, entertainment options, and communication systems are critical for senior living communities to attract new residents and keep them satisfied. Some communities expect their residents to contract their own ISP, requiring invasive technician visits, exorbitant start-up costs, and equipment purchases for services that often conflict with their neighbors, reducing speed and connectivity.

Enhanced connectivity

Reliable, widespread WiFi coverage for seamless connectivity

Entertainment for all ages

A diverse range of entertainment options with DIRECTV

Resident communication

Advanced phone systems for efficient communication for residents and staff

Safety & security

Integrated features to enhance safety and security

Compassionate Support

24/7 support designed specifically for seniors

MyCommunities

A completely customizable resident, family & staff platform

By combining the power of the latest technologies with a purpose-built infrastructure in your community, residents can be connected to everything they need in a matter of minutes without technician intervention. Customized user portals and senior-focused Compassionate Support™ allows simplified onboarding for residents upon move-in.
