

Connect your seniors to everything that matters with the MyCommunities App

Connection takes on new meaning in the senior living space. Your residents, their families and your staff depend on technology to stay connected to everything that matters.

MyCommunities provides vital links for your seniors, your staff, and your community with features that increase engagement, improve efficiency, and enhance the quality of care your company provides.

Fully tailored to the needs of your community, their families, and your staff

Enhance Quality of Life for Residents

Increase engagement with community events, encourage new friendships, and make it easy to socialize.

Provide Peace of Mind for Family Members

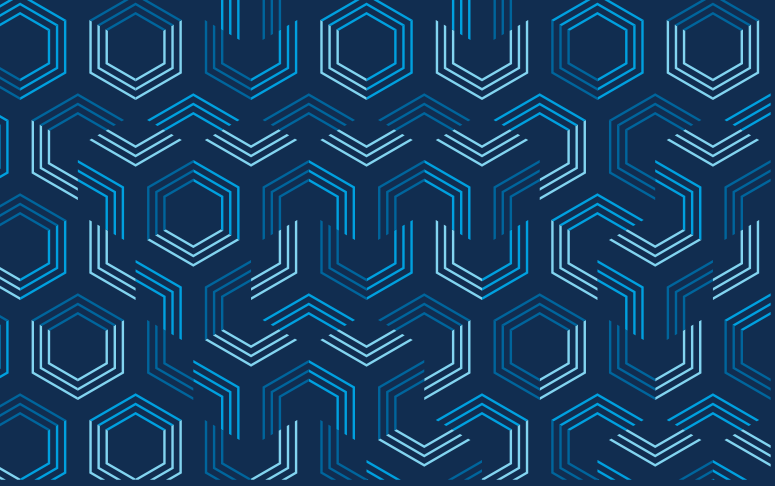

Provide transparency with updates and quick connection to their loved one.

Create Positive Culture for Staff

Increase efficiency for staff so they can focus on providing quality care.

Drive Business Growth for Directors

Integrate with IoT systems for property and staff insights. Improve resident retention and increase revenue growth.

Fully featured and customizable for your senior living community

Invite your residents to enjoy connection, engagement, wellness, entertainment, convenience, and more

Your residents will
